- **E-commerce Sales Performance Dashboard**

Sales dashboards empower individual department to plan their day-to-day activities and managers to help step in and coach where necessary. For example, following dashboard represents increase in number of orders over years. The profit generated in each category will help to optimize performance of store.

- **San Francisco Airport Dashboard**

This dashboard illustrates flights patterns, distance travelled activities for March 2020, when pandemic was declared. The visualization gives a glance for San Francisco Airport executives or given stakeholders to understand the behavior of flights.
